PROFESSIONAL PROFILE

I am currently an undergraduate student of Computer Engineering Sem 6 at Gandhinagar Institute of Technology, Gandhinagar. I am currently exploring the Web Development and hence spend most of my time exploring and Learning various tools and skills.

PROJECTS

House Rental Hub ↗

I am proud to have led a talented four-person team in the development of the House Rental Hub frontend website. This project involved close collaboration amongst team members, leveraging each individual's strengths and expertise to deliver a user-friendly and visually appealing platform. We believe this website will be a valuable resource for both renters and landlords.

Frontend Projects ↗

Skilled in crafting user-centric web experiences across diverse project types, including architect websites and digital marketing platforms. I created websites using HTML, CSS, JavaScript and GSAP, Locomotive Libraries of Javascript. This Experience was unbelievable while working on this projects, I learned many things about Design and Development.

EXPERIENCE

Intern at Bharat Inter (Virtual)

I done one month Virtual Internship in web development, in which i created some projects and gain experience of team work and work on HTML, CSS, JavaScript.
